

PRESIDENT'S REPORT

What a month in hockey!
 We are definitely off and running with meetings, commencement of turf training, Prince of Wales/Wellington challenge game, senior men's & women's roster games commenced, first club day and BBQ, chocolate & wine fundraisers and operation woodpile underway and I am sure the junior teams are looking forward to their first games too.
 As a committee we work very hard to keep the game affordable for all our members. This is a huge challenge made more difficult this year with the increased turf fees for both games and training imposed by McKenna Park and other venues.
 We have been able to maintain subs - with the exception of Div 3 (due to an increase in fees to the BDHA) at last year's rate. This would not be possible without the generous support given by our sponsors and the various fundraising activities which are organized by your committee. So, please get involved in the fundraising so that we can keep your costs as low as possible.
 Congratulations to all teams on a perfect club day - all our teams won! Thanks must also go to those who organized the BBQ. It was great to see so many supporting our teams all day.

How many chucks can a wood chuck chuck?
 Well - when the wood Chuck is our own Shane 'David Foster' Lamprey - the answer to that question is - quite a few.

*Woodcutting at Balt's on Sunday

People required for both chopping and stacking of the wood. This is a major income source for the club this year - so your help would be greatly appreciated. 'Many hands make light work'.
