### Where's the ball???

A Recent game in Launceston had teams in disarray when the ball seemed to have completely disappeared. Fortunately one of our players could later fill us in to what happened. The ball which had been hit over the backline - was retrieved by the 'one & only' Jodi Gardam who then threw the ball right over her own head and behind the fence - "it just came out of my hand the wrong way" was Jodi's defence. The nearby umpire commented that he really hoped she didn't play cricket in the off season!!
