

SHIRT NUMBER ALLOCATION

- Player numbers are allocated on a first in first choice basis with the following exception. If 2 or more people request the same number – the person with the highest number of senior games will be allocated requested number.
- Once a number is redundant for a period of three years, the number can then be reallocated. If the player whom previously wore the number returns to the club, they must purchase another shirt if that number has been reallocated.
- A player whom has played a minimum of 400 games with the club shall retain their number for life. The only exception being if a personal arrangement is made with another player and the club is notified in writing.
